TRABALHO DE REDES

Professor: Taveira.

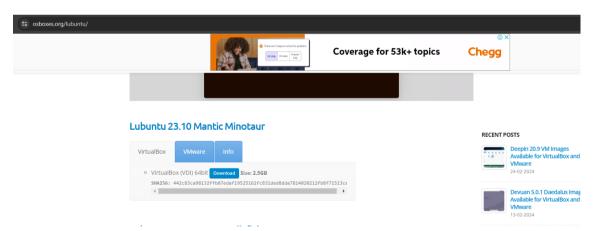

IFCE – Campus de Fortaleza Administração de serviços de rede.

Passo a passo de criação da máquina virtual Lubuntu no Virtual Box.

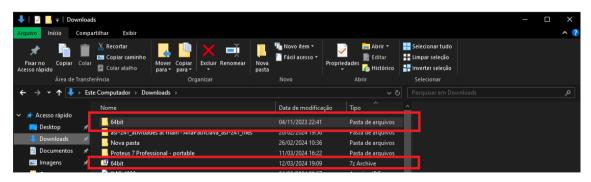

Acessei o link na aba atividades no Classroon.

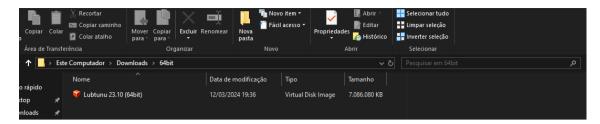

Fiz o download de uma versão do Lubuntu.

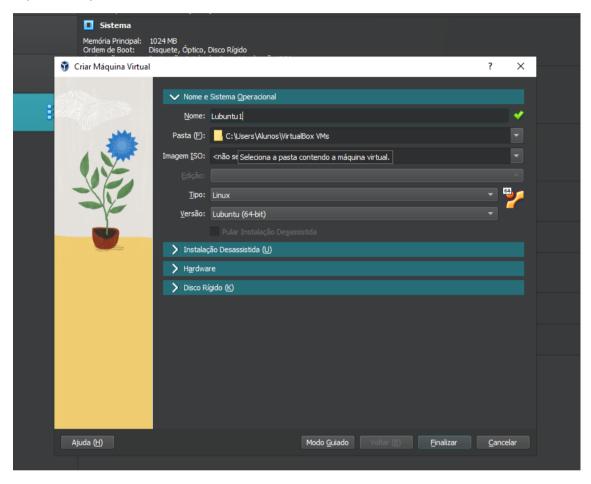

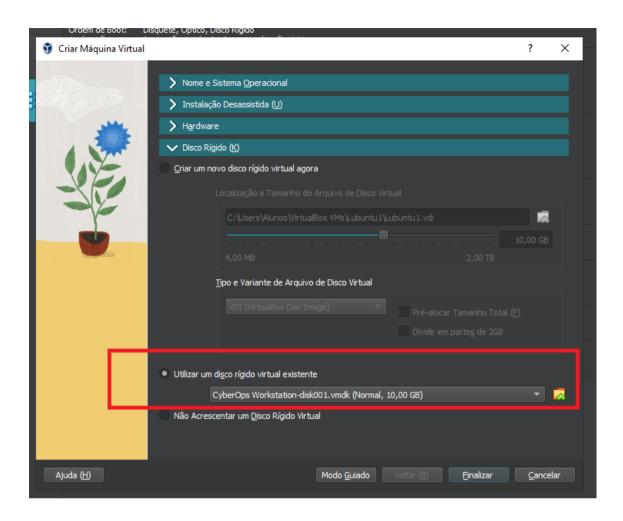

Aqui uma sequência dos arquivos baixados, descompactados e etc.

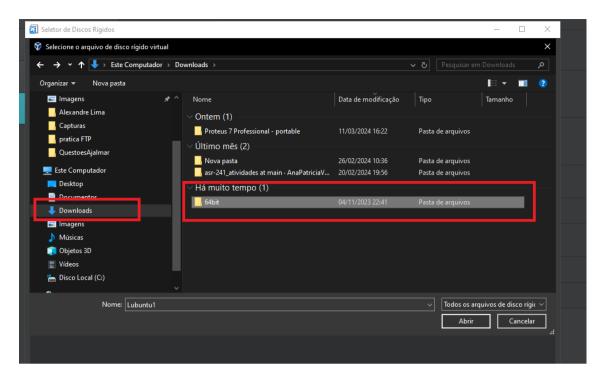

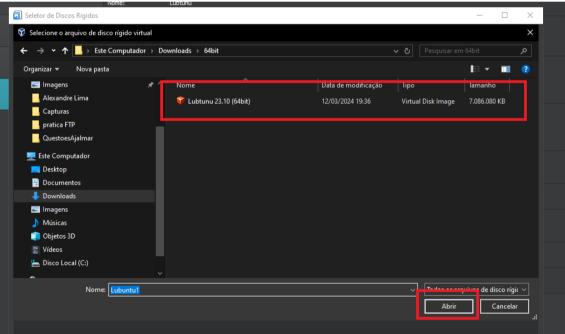

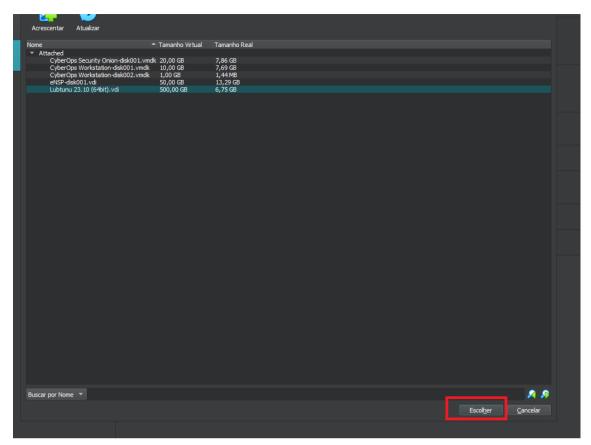

Agui inicia o processo de salvar a ISSO do Lubuntu no virtual box.

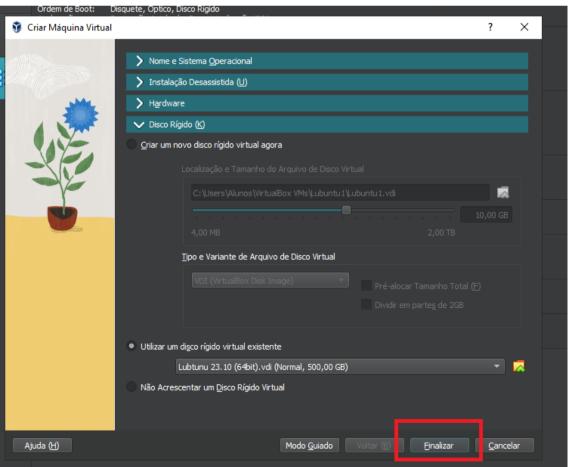

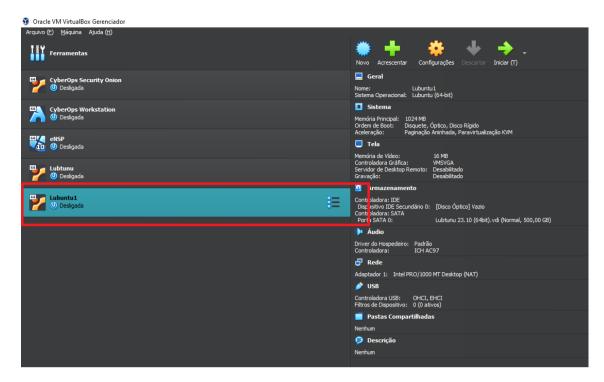

Observação, a última tela do Lubuntu aberta por algum motivo não capta, mas chamei o professor na aula e mostrei o ocorrido.
